EDUCATION OF THE SOUL.

What the young are taught to love and admire is the most important part of their education. It is inadequate teaching which seeks only to cram the heads of pupils with knowledge. Walter Scott declared it enough for boy to learn to speak the truth and ride a horse. Certainly no degree of mental cultivation can make up fer a lack of honor, or the love of justice, goodness and truth. The character of a teacher is sure to leave an impress on the minds of his or her pupils Many a man can trace his highest aspirations directly back to the influence of some teacher in his youth. In the choice of school teachers, purity and loftiness of character is as much to be regarded as mental qualifications A teacher with a narrow mind and selfish heart cannot infuse anything like hero worship or lofty sims into

John Stuart Mill said that every man has two educations; one he receives from others; the other, more valuable, he gives himself. The choice of books for reading is, in some sort, a choice of teachers. The wretched fiction that finds its way into the hands of the rising generation is enough to undo the work of the best teaching under the sun. Young people will read novels. Good novels in moderation, tike sweetmeats, will do them no harm. The reading of the best fiction is a cultivation of the heart and an expansion of the mind, Thackboy or girl who reads them is likely to become imbued with a contempt for shams and snobbery, meanness and deceit; and to learn to love whatever is coble and lofty in humanity. The worthy of all love and admiration; those he scorches in the blaze of his satire are deserving of all contempt.

A dispatch says the Pacific Improvement Company (the Southern Pacific Railroad) will begin at once some extensive work in and around Monterey. They will greet a fine bath house near the present location of the Dei Monte bath houses, in which will be placed apparatus for steam baths on a large scale. An engine for pumping the water out of the bay and heating it will be placed in the building. The next thing will be the building of about fifty miles of railroad, from the town of Monterey back to the town, making a complete cirin the center. The Reception to Senator Sharoa La Evening.

Senator Sharon arrived from Carson last evening and took the overland train on his way home to San Francisco. He received no serenade at the depot here, no arrangements to that effect having been made by him with the Reno band. The Senator stood a quarter of an hour in the ofice of the Depot Hotel. He leaned against the bar and talked with the proprietor. A stranger in a mulberry suit, Job Trotter perhaps, came up and talked with him. The Oil Can of the Incendiary. The jury empaneled to investigate the origin of the late great fire held a session at which a reporter of the Eureka Sentinel was present. Thus far they have been unable to ascertain just how the fire started. The evidence gues to show that the fire did adjoining building, which was unocwitnesses to enter the kitchen of Mrs. Poplin state that the fire seemed to be on the outside, in the vicinity of the southeast corner, and appeared be just in the act of breaking through. The fences in the back yard were burning rapidly. From the fact that the fire sent up a dense volume of black smoke and burni wickedly from the very start, the jury is of the opinion that coal oil must have been used in igniting it, though they are unable to fasten guilt or even suspicion on any one. The jury adjourned over for one week, hoping to elicit further

testimony. Honest Voters on the Comstock

A well known lawyer tells a Virginia Chronicle reporter that nearly a hundred men have been in his office and unequivocally offered to sell their and unequivocally offered to sent their votes for money, and that some of these men are looked upon as decont citizens. He was surprised when they made the object of their visit known, but in every case had allowed them to fully commit themselves before in-forming them that he was not in the usiness of corrupting the ballot-box.

Burned Down, and the Shaft Time bers Consumed --- A Man Burned to Death,

The Lyon County Times of yesterday gives the following account of a frightful explosion at the Quinn mine on Tuesday night:

Since the Quinn mine was attached a short time ago, there has been no counting of the vote occupied from 9 person around the works at night except Victor Laundry, the watchman and keeper. James A. Waddell, who day. The following is the list of was sitting at a table writing when the explosion occurred. He immediately rushed out and saw that the works were completely demolished. The boarding house is situated about 100 yards from the works, and Mr. Waddell could see fire scattered around the ground in different directions, where it had been thrown by the explosion. He ran to the hoisting works and found Victor Laundry struggling inside, badly burned and unable to get out. Horse Lake and Madeline Plains, There are about twelve miles of heavy grading to accomplish. Work has always been done on the mountain bestroyed except a small pile of lumber.

The cause of the fire could not be ascertained, but there is no doubt that it was burning some time before the explosion. Some Hercules powder, about two and three-quarter boxes, and a quantity of caps had been placed in the building the day before, and were stored on the east side near the shaft. It is said by some that there were about 25 pounds of black powder also in the building. Laun-dry was unable to speak intelligibly concerning it, and the origin of the fire will probably remain unknown. The building was torn away almost level with the ground, and some portions of the roof were thrown more than 100 yards down the road toward

An Attempt at Stage Robbery. The Virginia Chronicle says the Belleville and Candelaria stage wa met by two road agents on Monday night, near Coal Valley station, and the driver was ordered to stop. The driver, G. Finney, did not obey the order, and a shot was fired at him, the bullet passing between him and a passenger by his side. The horses started on a run at the sound of the pistol, and urged on by the driver's whip they soon left the robbers far behind. The road agents are supposed to be the same men who twice robbed the Aurora stage this summer.

Not Rich But Impecuatous.

Count Telfener, brother-in-law of John W. Mackay, who recently visited the Comstock, is reputed the richest man in Italy. Per contra to Telfener being the richest man in Italy, a letter from a California lady in Europe, published in the Sacra-mento Bee a few days ago, says he is mpecunious, one of that class of seedy poblemen that are so numerous in Eu rope, and who are generally willing to divide their titles with rich heiresses albeit they can not boast of an illustrious lineage.

Necessary Knowledge The new American Union and World Map gives the information necessary to obtain a correct geographical knowledge of the whole world. A double map, it shows upon one side all the States of the Union from ocean to ocean, with railroads, population and other information of value; upon the reverse every country in Europe, with circus were being driven from Ne- steamer and railroad routes to reach them. A first rate map at a very low price. The Subscription Department of A. L. Bancroft & Co. supplies it to the public through agents.

The Lake County Examiner says that a man named Lockwood, with his sons, of whom "there are seven." have come to Lake county from Willamette valley, and located in Goose Lake valley across the slash from Lakeview. They brought with them a band of about 800 Angera goats.

ARUMENATION OF PRINCIPLES.

First. We affirm that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through furnierus difficulties should be preserved. That the peace regained sh ald be cherished. That the dissevered Union, now happily restored, should gained she aid be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. I hat the order evablished and the credit acquired should never be imperiled. That the pensions promised should be paid. That the debt so mach reduced abound he extinguished by the till payment of every dollar thereof. That the reviving industries should be further promoted, and that the commerce already so great should be steadily encouraged.

Second The Constitution of the United States is the supreme law, and not a mere compact. Out of the confederated States it made a sovereign nation. Some powers are denied to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by national and not by State tribunals.

determined by national and not by State tribunals.

Third. The work of pepular education is
one left to the care of the several States, but
it is the duty of the national government to
aid that work to the extent of its constitutional shifty. The intelligence of the nation
is but the aggregate of the intelligence in the
several States, and the deating of the nation
must be guided, not by the genius of any one
State, but by the average genius of all.

NON-SECTABLAN SCHOOLS.

Fourth. The constitution wisely forbids

Non-ECTARIAN SCHOOLS.

Fourth. The constitution wisely forbids
Congress to make any laws respecting an establishment of religion, but it is idle to hope that the mation can be profected against the influence of sectarianism while each State is exposed to its particular demination. We therefore recommend that the constitution oc so amended as to lay some prohibition upon the Legis. attree of each State, and to foshed the appropriation of public funds to the support of sectarian schools.

Fith. We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenue should be so discriminate as to favor American lador. That in Garrier grant of the public domain should be made to any railroad or other corporation. That slavery having perished in the States, its twin barbarity, polygam, must die in the Territories. That everywhere the protection accorded to a citizens of American burth must be seemed to citizens of American understoned to citizens of American understoned to citizens of American understoned to citizens of a subject of the men who preserved its the critical control of the men who preserved its the grateful privilege and the sacred duty of the American people.

Bighth. We charge upon the Democrati-party the habitual ascrifice of justice am-partiotiem to a supreme and insatiable lus-for office and patronage; that to obtain pos-session of the national and state government and af the control off place and position, they have obstructed all the efforts to preserve the parity and conserve the treedom of suffrage, have devised trauddlent certificates and rehave obstructed all the efforts to preserve the printy and conserve the freedom of suffrage; nave devised fraudulent certificates and returns; have ishored to uneast lawfully, elected members of Congress, to secure at all hasards the vote of the majority of States in the House of his presentatives; have ended-vored to occupy by force and fraud places of trust given to others by the people of, Maine, and rescued by the courage and action of Maine's pariotic sons; have, by methods, richous is principal and tyranuical in practice, stacked partiess, legislation, to appropriation, bills; have crushed like rights of individuals, and vindicated the principles and sought the favor of rebelliop ageines, the natios, and have Vindicated the principles and sought the favor of rebellion agricate the battor, and have sudcavored to colliterate the wacred methorics of the war and to novercome its inestimable seed remnits—freedom and individual equality. PRESIDENTIAL ELECTORS:

POR JUDGE OF THE SUPREME COURT:

ROLLIN M. DACGETT.

Resolutions Adopted by the Re publican State Convention:

publican State Convention:

Its solved, That the platform of principles adopted by the National Republican Convention, at Chicago June last, deserves and receives the approval and hearty indorsement of all the Republi cans of Nevada.

RESOLVED, That the hordes of Chinese that are coming in upon our shores to eat out our substance are destroying our country, impovertabing our mines, mining and laborers, debauching our youth, and making both men and women lower in the scale of humanity. This evil must and shall be stopped, and to this end we piedge the entire strength of the Republican party.

In the language of our great leader, we regard the immigration of Asiatics to the United States as little less than a servile invasion. Should the Commissioners now in negotiation with the Chinese Government fail to secure by the first of next January such modification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this country, we demand that the treaty then be promptly annulled, and such laws enacted as will relieve us at once and forever of the Asiatic scourge now menacing the well-being of the Republic.

RESOLVED, That we most heartily indorse the general financial policy of the Republican party, which, in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the raising of our national credit to a height never before known, and to the restoration of anational prosperity. But we also demand the complete restoration of silver coin to its former position by he side of gold; and for the purpose of attaining that end we hold it to be the duty of the teesfrai Government, through the authorization of colonges, and for the benefit of the producer, the entire silver product of the country, relieving the mining industry of the restoration in foreign markets.

As mining for the precious metals is the leading industry of Nevada. we are infaks hip

dustry from the loss attending the sail of silver bullion in foreign markets.

As mining for the precious metals is the leading industry of Nevada. We are inflexibly opposed to the bill reported by the Committee on Mines and Mining, and now before the Youse of Representatives, prohibiting the following of flasure veins or deposits beyond the vertical lines of suriace boundaries; and we urge our Representatives in both Heuses of Congress to continue their efficies for its defeat. Such a restriction would work disaster to the labors of the prospector, and seriously retard the development of the mineral riches of the West, and we cordially indorse the action of our Representative, the flor. R. M. Daggett, in this bohalf.

RESOLVED, That the Republican party claims it to be the right and only of State and Territorial Legislatures to regulate and restrict the charges of railroads exclusively within their respective boundaries, and that it is no less the constitutional right than the positive duty of Congress to regulate the tariffs and restrict the charges of inter-State railroads.

raiffs and restrict the charges of inter-State railroads.

KESOLVED, That while we congratulate the country on the successful resumption of specie payments, and the splendid financial condition of the Republic, we are in favor of restricting the issuance of National and State legal tender notes, to denominations of no least than five dollars, thus creating an increased home demand, as a circulating medium, for the precious metals which our gaines are annually yielding.

KINSOLVED, That Gen. James A. Garfield and Chester A. Arthur, by their services to the country, by their devotion to principe, and by their unspotted reputation as men and as citizens, are deacying of the united and earnest support of all the loyal people of the United States for President and V.ce P ceident thereof. We rejoice in their nomination, and we pledge to them the electoral vote of Nevada at the ensuing election, by an overwhelming majority.

YOUNG MEN WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the alter of suffering humanity. DR. SPINNET will guarantee to forfult \$500 for every case of seminal Weakness or private disease of an kind or character which he undertakes and

There are many at the age of thirty and sixty who are troubled with too frequent evacuations of the biadder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sedument wiil often be found, and some small particles of albamen will appear, or the color will be of a thin milkieb hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the canse, which is the second stage of seminal weakness. Dr. S will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consaltation Free, Thorough examination and advice 33.

P. S. For private diseases of short standing a full course of medicines sufficient for a care, with necessary instructions, will be sent to any address on receipt of Ten Dollars.
